

The Portable Bar Trolley

Product Features

The portable bar trolley is a large and powerful piece of serving equipment.

The trolley can be converted from a coffee station to full bar or cocktail service in minutes.

The bar comes with a removable speed rail, large icewell and a garnish storage.

The bars have large wheels for quick and easy movement from storage to venue or from venue to venue. The portable bar trolley is easily restocked back-of-house.

All equipment is built with stainless steel frames and fitted with wood or steel cladding or what ever the client requires. Service levels can be anything from brass to granite.
