

The Portable Buffet Trolley

Product Features

The portable buffet trolley is the latest in high quality, durable buffet equipment.

The frame of the trolley is made entirely out of stainless steel, the cladding on the frame can be customised for your specific needs.

Using the new "melawood" we can give the trolley any look you need. The table tops can also be customised to your need with a large range of colours in the granite finish, you can also opt for the wood top and have 10mm toughened glass as the surface.

The unit has an electrical inlet where you can power a series of plugs under the table top, the option of LED lighting under the trolley is also available.
