

The Room Service Trolley

Product Features

This compact trolley has been designed to keep food hot while it is being moved to the room.

With in room dining standards rising around the world trolleys are being dressed in the room. For this reason the trolley has to fit in with the aesthetics of the hotel while it is being moved around.

There has to be space for cutlery, extra crockery, glassware and linen.

High quality casters and sturdy stainless steel frame and hotbox make for a durable trolley that will provide many years of service.

All electrical components are easily replaced and repaired offsite for minimal downtime.
